

## i2 User Track

11.00 – 12.00

### **i2 iBase 9.0 & iBase Roadmap**

*by Matthew Farenden, Product manager i2 Group*

13.00 – 14.00

### **Create and share all-source intelligence with I2 Analysis Studio** – Steven Dorresteyn & Ana Maria Oniceanu, DataExpert

*Are you an i2-user and are you looking for ways to fuse and include dark web, social media, digital forensics and data from other sources in your visual and network analysis? Make sure you don't miss this session! Learn how to explore, analyse and report intelligence from disparate data sources by using i2 (rest API) self-built connectors while still using the well-known link analytics power of i2 Analyst's Notebook.*

14.00 – 15.00

### **Analyst's Notebook: Tips & Tricks** – Helmi van den Brink, i2 consultant, DataExpert

*i2 Software is used by many investigative and defense agencies worldwide as an important data analysis tool for fighting crime. During this session we will take you through some useful tips & tricks in the Analyst's Notebook analysis and visualization software, with the aim of discovering new functionalities and ways to achieve better results when performing i2 analyses. Don't miss this opportunity to take your use of the i2 Analyst's Notebook software to the next level.*

15.30 – 16.30

### **i2 F.A.Q interactive high speed learning session**

*By DataExpert i2 specialists*
